

BIBLIOGRAFÍA POR TEMAS

TEMA 1:

Doménech Carbó, T. *Principios físico-químicos de los materiales integrantes de los bienes culturales*. Valencia: Editorial Universitat Politècnica de València, 2013

Eusman, E. Iron gall ink - History. En: *The Iron Gall Ink Website* [en línea]. Amsterdam: Cultural Heritage Agency of the Netherlands, 1998. Disponible en: https://irongallink.org/igi_index8a92.html

Kroustallis, S. *Escribir en el siglo XVI: recetas de la tinta negra española*. Torre de los Lujanes. Revista del aReal Sociedad Económica Matritense, n°48, 2002

Vergara Peris, J. *Conservación y restauración de material cultural en archivos y bibliotecas*. Valencia: Biblioteca Valenciana, 2005

TEMA 2:

Díaz Hidalgo, R.J.; Córdoba, R.; Nabais, P.; Silva, V.; Melo, M.J.; Pina, F.; Teixeira, N.; Freitas, V. 'New insights into iron-gall inks through the use of historically accurate

reconstructions.' *Herit Sci*, 6 (2018), 1-15, <https://doi.org/10.1186/s40494-018-0228-8>

Eusman, E. 'Iron gall ink - Ingredients', The Iron Gall Ink website, (1998), <https://irongallink.org/iron-gall-ink-ingredients.html>

Karnes, C., 'How to make ink - Ingredients', The Iron Gall Ink website, (1998), <https://irongallink.org/how-to-make-ink-ingredients.html>

Kolar, J.; Strlic, M. 'Evaluating the effects of treatments on iron gall ink corroded documents. A new analytical methodology.', *Restaurator* 25 (2004), 94-103 <https://doi.org/10.1515/REST.2004.94>

Neevel, 1995; Hahn, Malzer, Kanngiesser & Beckhoff, 2004

Neevel, J. Phytate: a potencial conservation agent for the tratment of ink corrosión caused by iron gall inks [en línea]. *Restaurator*, 1995, vol. 16, n.º 3, p. 6-7. Disponible en:

https://www.researchgate.net/publication/249945152_Phytate_a_Potential_Conservation_Agent_for_the_Treatment_of_Ink_Corrosion_Caused_by_Irongall_Inks

Rouchon, V.; Durantón, M.; Burgaud, C.; Pellizzi, E.; Lavédrine, B. Room-temperature study of iron gall ink impregnated paper degradation under various oxygen

and humidity conditions; time-dependent monitoring by viscosity and x-ray absorption near-edge spectrometry measurements. *Analytical Chemistry*, 2011, vol. 83, n.º 7, p. A. [Consulta: 18-04-2018]. Disponible en: <https://hal.archives-ouvertes.fr/hal-01433102/document>

Stijnman, A., 'Iron-gall ink and ink corrosion', *Archivum Lithuanicum*, 4 (2002) 171-178, http://lith520.class.uic.edu/Alt_4_2002.pdf

Stuart, B. *Analytical techniques in materials conservation*. Chichester (Inglaterra): John Wiley & Sons, 2007

Vergara Peris, J. *Conservación y restauración de material cultural en archivos y bibliotecas*. Valencia: Biblioteca Valenciana, 2005

TEMA 3:

Banik, G. Decay caused by iron gall inks. En *Proceedings of European workshop on iron gall ink corrosion*, Museum Boijmans van Beuningen, Rotterdam, Holanda: ICN. 1997

Duh, Jelena; Krstic, Dragica; Desnica, Vladan; Fazinic, Stjepko. (2017). Non-destructive study of iron gall inks in manuscripts.

Gal, L.; Ciglanská, M.; Ceppan, M.; Havlinova, B.; Jancovicová, V.; Rehaková, M. 'Chemical Aspects of Degradation of Historical Documents with Iron Gall Inks.' *Chem. Listy* 108 (2014), 191-197

Kolar, J.; Strlic, M. 'Evaluating the effects of treatments on iron gall ink corroded documents. A new analytical methodology.', *Restaurator* 25 (2004), 94-103 <https://doi.org/10.1515/REST.2004.94>

Kolar, J.; Strlic, M. (ed.), *Iron gall inks: on manufacture characterisation, degradation and stabilisation*, National and University Library of Slovenia, Ljubljana, Slovenia (2006)

NEEVEL, J. Op. cit., p. 3-4. NEEVEL, J. Phytate: a potencial conservation agent for the treatment of ink corrosion caused by iron gall inks [en línea]. *Restaurator*, 1995, vol. 16, n.º 3, p. 6-7. Disponible en: https://www.researchgate.net/publication/249945152_Phytate_a_Potential_Conservation_Agent_for_the_Treatment_of_Ink_Corrosion_Caused_by_Irongall_Inks

Odor Chávez, Alejandra. *Las tintas ferrogálicas: su historia, deterioro y estabilización*. 2013

R. Viegas, V. Corregidor, M.T. Peña, E. Alves, L. Alves, Preliminary studies on iron gall inks composition using an external ion beam, *Int. J. Conserv. Sci.* 4 (2013) 593-602

Reißland, B. 'Ink corrosión aqueous and non-aqueous treatment of paper objects-State of the art.', *Restaurator* 20 (1999), 167-180
<https://doi.org/10.1515/rest.1999.20.3-4.167>

Reißland, B. 'Visible progress of paper degradation caused by Iron Gall inks.', *The Iron Gall Ink Meeting* (2000), 67-72

Reissland, B. & Hofenk de Graaff, J. (2000). ICN Condition rating for paper objects with iron gall ink

Rouchon, V.; Durocher, B.; Pellizzi, E.; Stordiau-Pallot, J. 'The water sensitivity of iron gall ink and its risk assessment.', *Studies in Conservation*, vol. 54, 4 (2009), 236-254 <https://doi.org/10.1179/sic.2009.54.4.236>

TEMA 4:

Iciar, Juan de, 1548. Recopilación subtilissima, intitulada orthographia pratica por la qual se enseña a escreuir perfectamente, así por pratica como por geometria

todas las fuertes de letras que mas en nuestra España y fuera della se usan.

KOLAR, J; STOLFA, A; STRILIC, M; POMPE, M; PIHLAR, B; BUDNAR, M; SIMCIC, J; REISSLAND, B. Historical iron gall ink containing documents. Properties affecting their condition. *Analytica Chimica Acta* [en línea], 2006, vol. 555, n.º 1, p. 167-174. Disponible en: [https://www-sciencedirect-com.accedys2.bbtk.ull.es/science/article/pii/S0003267005014765#](https://www.sciencedirect.com/accedys2.bbtk.ull.es/science/article/pii/S0003267005014765#)

Pérez, Ignacio. 1599. Arte de de escreuir con cierta industria e invención para hazer buena forma de letra y aprenderlo con facilidad

Rosetti, Giovanventura, 1555. Notandissimi secreto de l'arte profumatoria

Zerdoun Bat-Yehouda, Monique, 1983: Les encres noires su moyen âge (jusqu 'à 1600), Paris: Ed. Du centre nat. De la recherche scient. p. 94-95
