YES

Image by [Alexander Krivitskiy](#) on [Pixabay](#)

NO

What kind of photo is being described?

This is a posing portrait taken to the extreme, in the sense that the portrait has been very carefully arranged or set-up. The photographer makes very specific choices, in order to control every element and transmit a given concept in a powerful way.

Mention a different type of photograph using the same criterion: A HIGH-ANGLE SHOT

**What do you call the digital equivalent
of grain?**

What kind of photo is being described?

Appearing “underexposed” or dark, without actual underexposure and loss of details in relevant areas, this type of images may use high contrast between light and dark in order to highlight an element of the composition.
